relationship with [Redacted] Sorry just
wanted 2 make sure we were on the
same page about the reason. But
yeah, have a nice life I guess.

We've been here before Zipporah, I
already know where you're coming
from, you know I think it's a
complete joke. I don't know if you're
salty that I won't bring myself down
to your level, but that's just not the
kind of person I am. Don't text me
again about this. Goodnight

And this is exactly why having u in
her life would just be as painful for
her as it has been for me.

Honestly the goal is to never have 2
speak to any of u again so perfect
